

A FULLY AUTOMATIC
FOLDING SOLUTION

VERSATILE, USER-FRIENDLY AND DEPENDABLE

The fully automatic Hasler HF90 Folder is ideal for any business, church, school or print-for-pay center requiring the highest levels of productivity and application flexibility. From fully automated fold plates to the automatically adjusting stacker wheels, which accommodate various fold types, the HF90 is designed to increase efficiency and give you a professional fold every time.

Jobs are completed exceptionally fast with quick, easy set-up and a folding capability of up to 20,100 pieces per hour. Fully automated fold plates, insulated to reduce operating noise, provide one touch set-up of the six pre-programmed fold settings or for choosing one of the 35 programmable jobs that can be stored into memory.

Even untrained operators will quickly master the HF90. Its user-friendly control panel with large 2.8" LCD backlit display lets you load up to 500 sheets in the hopper, select a fold type, press start and walk away. The system includes a detector that automatically stops operation if a fault occurs. The HF90 holds up to 500 finished pieces on its telescoping outfeed stacker and will fold the sheets in as fast as two minutes. A fine tune adjustment feature precisely sets fold stops for crisp, accurate folds every time.

The HF90's advanced software will process all standard fold types and paper sizes to meet your customized needs. The Daily Mail Mode feeder folds up to four stapled or unstapled sheets at one time through the dedicated feed system, which has its own side guides and skew adjustment. When it comes to ultimate productivity and ease of use, nothing compares to the HF90.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED PRODUCTS AND SERVICES THAT COMPLETE YOUR TOTAL MAILING SOLUTION

Today's fast-paced business environment requires your mailing operations to be as efficient as the rest of your business. More than ever, you need a total solution that provides the capabilities to meet all your demands, while giving you control and transparency of every mail-related function.

The HF90 Document Folder will dramatically increase office efficiency by allowing you to operate at peak performance. And to truly maximize automation of your mailing process, consider integrating a powerful Hasler address printer, high-speed tabber, or digital mailing system into your operation. Each of these products will add processing speed, enhanced performance and a professional appearance to your mail.

Hasler has the total mailing solution to meet all your important processing needs, today and as you change and grow in the future.
