PF-90 DOCUMENT FOLDER

A fully automatic folding solution

WE VALUE YOUR MAIL

PF-90

DOCUMENT FOLDER

VERSATILE, USER-FRIENDLY AND DEPENDABLE

The fully automatic Neopost PF-90 Folder is ideal for any business, church, school or print-for-pay center requiring the highest levels of productivity and application flexibility. From fully automated fold plates to the automatically adjusting stacker wheels, which accommodate various fold types, the PF-90 is designed to increase efficiency and give you a professional fold every time.

Jobs are completed exceptionally fast with quick, easy set-up and a folding capability of up to 20,100 pieces per hour. Fully automated fold plates, insulated to reduce operating noise, provide one touch set-up of the six pre-programmed fold settings or for choosing one of the 35 programmable jobs that can be stored into memory.

Even untrained operators will quickly master the PF-90. Its user-friendly control panel with large 2.8" LCD backlit display lets you load up to 500 sheets in the hopper, select a fold type, press start and walk away. The system includes a detector that automatically stops operation if a fault occurs. The PF-90 holds up to 500 finished pieces on its telescoping outfeed stacker and will fold the sheets in as fast as two minutes. A fine tune adjustment feature precisely sets fold stops for crisp, accurate folds every time.

The PF-90's advanced software will process all standard fold types and paper sizes to meet your customized needs. The Daily Mail Mode feeder folds up to four stapled or unstapled sheets at one time through the dedicated feed system, which has its own side guides and skew adjustment. When it comes to ultimate productivity and ease of use, nothing compares to the PF-90.

QUICK FACTS

- Up to 20,100 folded pieces per hour
- Automated stacker wheels
- Up to 35 jobs
- Large user intuitive LCD display
- Telescoping outfeed stacker
- Auto-batch and counter
